

0953 - Technical Data Sheet

General Product Information

Product Number	0953
Common Name	Dust Check P
Application	Dust Suppressant

Description

This product is based on renewable chemistry. It effectively controls dust on dirt roads when applied at a rate of 0.3-1.5 grams per square yard. It needs to be reapplied less often, has low VOC during application and will not oxidize, break down and present odour problems on site. This product is to be diluted with water before application.

Directions

Dilute 10:1 with water. Apply at a rate of 0.3-1.5 grams per square yard. This product can be applied on dry surfaces or in light rain. Traffic can travel on treated roads immediately after application.

Packaging Availability

This product is available in the following packaging options:

No packaging options are available.

Physical Properties

For an extensive list of physical properties, refer to the MSDS.

State	Liquid
Odour	Mild
Color	Amber
Specific Gravity	1.03 ± 0.02
pH	8.0 ± 0.5

Cautionary Measures

For an extensive list of precautionary measures and emergency procedures, refer to the MSDS.

Personal protective equipment recommended for handling and use

Gloves	Impermeable gloves required.
Respirator	Not required for normal use.
Eyewear	Chemical goggles or safety glasses required.
Footwear	Specialty footwear not required.
Clothing	Specialty clothing not required.
Other	Eye-wash station required.

General first-aid and emergency measures

In case of inhalation

Remove victim from exposure and allow fresh air. If discomfort results, seek medical attention.

In case of Ingestion

DO NOT INDUCE VOMITING. Have victim drink large amounts of water. Seek medical attention.

In case of contact with skin

In case of contact with skin, wash with soap and water.

In case of contact with eyes

In case of contact with eyes, check for and remove contact lenses. Immediately flush with cold running water for at least 15 minutes. Seek medical attention immediately.

General handling procedures and storage requirements

Handling procedures

Do not ingest. Avoid skin and eye contact.

Storage Requirements

Store in a cool, dry area above freezing and away from incompatibles. Keep container tightly closed when not in use. Protect from damage.

Preparation of TDS
