

0952 - Technical Data Sheet

General Product Information

Product Number	0952
Common Name	Eco Dust Check
Application	Well Foamer

Description

This concentrated product utilizes a synthetic compound that effectively controls dust on dirt roads. When applied with water, the synthetic lubricant is left behind when the water evaporates, leaving a protective layer that will control dust. Unlike traditional oil and calcium based dust suppressants, this product has low toxicity to surrounding wildlife.

Directions

This product must be diluted at time of use. Use a 1:10 ratio as a starting point and adjust accordingly. A single application will provide dust control; however, consecutive uses will increase performance.

Packaging Availability

This product is available in the following packaging options:

No packaging options are available.

Physical Properties

For an extensive list of physical properties, refer to the MSDS.

State	Liquid
Odour	Odourless
Color	Yellow
Specific Gravity	0.88 ± 0.02
pH	5.0 ± 0.5

Cautionary Measures

For an extensive list of precautionary measures and emergency procedures, refer to the MSDS.

Personal protective equipment recommended for handling and use

Gloves	Impermeable gloves required.
Respirator	Not required for normal use.
Eyewear	Chemical goggles or safety glasses required.
Footwear	Regular safety boots required.
Clothing	Specialty clothing not required.
Other	Eye-wash station and shower required.

General first-aid and emergency measures

In case of inhalation

Remove victim from exposure and allow fresh air. If discomfort results, seek medical attention.

In case of Ingestion

DO NOT INDUCE VOMITING. Have victim drink two glasses of water. Contact physician immediately.

In case of contact with skin

Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing and shoes before reuse.

In case of contact with eyes

In case of contact with eyes, check for and remove contact lenses. Immediately flush with cold running water for at least 15 minutes. Seek medical attention immediately.

General handling procedures and storage requirements

Handling procedures

Do not ingest. Avoid contact with eyes.

Storage Requirements

Store in a cool, dry area above freezing and away from incompatibles. Keep container tightly closed when not in use. Protect from damage.

Preparation of TDS
