

# LIQUI-ZYME

## Technical Data Sheet

### Application: Organic Waste Degradar

#### Description

This product is a liquid, cherry scented concentrate of specially selected bacterial strains which are combined with free enzymes. These enzyme catalysts work synergistically for the fastest action available in a liquid organic waste degrader. The product's performance as an all purpose waste degrader and odour suppressant is unsurpassed. The enzymatic activity accelerates the conversion of organic material into soluble compounds and results in superior biological degradation rates. 100% biodegradable.

#### Directions

This product is ready to use and contains 100 billion bacteria count per gallon. Initial shock treatment and daily application will depend upon the size of the system and the type of waste. Shake well before using.

### Packaging Options

- 12 x 1L • 60L
- 4 x 4L
- 20L

### Physical Properties

State.....Liquid  
 Colour.....Green  
 Odour.....Cherry  
 pH.....6.0-7.0

### Personal Protective Equipment Required

Not required for normal use

### General First Aid Information

#### • Inhalation

Not applicable.

#### • Ingestion

Induce vomiting. Give victim large amounts of water or milk. Seek medical attention.

#### • Skin Contact

Not applicable.

#### • Eye Contact

In case of contact with eyes, flush eyes with plenty of water.
