

# PROTOCOL K-300i

## Technical Data Sheet

### Application: Cleaner/Degreaser

#### Description

Protocol K-300i carries the Ecologo signifying certification by Canada's Environmental Choice Program, under the C.E.P.A. K-300i employs a combination of biodegradable surfactants and builders in a highly concentrated formula that has incredible performance with the added benefit of low environmental impact. K-300i must be diluted depending on the soil load to be cleaned. For use in food plants, see directions.

#### Directions

Apply solution using a sprayer, sponge, pressure washer, or brush. Let stand for 10 - 30 seconds. Some agitation may be required. Wipe with a damp cloth or rinse with water. Dilution rates (K-300i:Water): Light soils: 1:32, Medium soils: 1:20, Heavy soils 1:15. Food contact surfaces must be rinsed with potable water before reuse. Please refer to our dilution chart from more detailed information.

### Personal Protective Equipment Required

- Rubber gloves to prevent drying of hands
- Chemical goggles or safety glasses

### General First Aid Information

#### • Inhalation

Remove victim to fresh air. Allow rest in a well ventilated area.

#### • Ingestion

DO NOT INDUCE VOMITING. Have victim drink large amounts of water. Seek medical attention.

#### • Skin Contact

In case of contact with skin, rinse thoroughly with water.

#### • Eye Contact

In case of contact with eyes, flush eyes with plenty of water.

**For further safety information  
please consult the MSDS**

### Packaging Options

- 12 x 1L
- 20L
- 4 x 4L
- 205L

### Physical Properties

State.....Liquid  
Colour.....Pale Amber  
Odour.....Mild  
pH.....11.0-12.0

#### CFIA Approved

**Active Ingredients:** Alcohol Ethoxylate,  
Sodium Carbonate
