

SLICK

Technical Data Sheet

Product #605

Application: Scale and Oxide Remover

Description

This phosphoric acid washroom cleaner is designed to quickly and effectively remove uric encrustation, organic waste deposits, iron stains, hard water scale and other soils from toilets, urinals, shower stalls and other related surfaces. This product eliminates odours by removing the source of bacteria growth. It has a pleasant cherry scent and is designed for use in institutions, hospitals, clinics, food handling establishments, and locker rooms. This product is a blend of mild acids that will not attack polished surfaces.

Directions

For light soils and general maintenance cleaning, dilute 1 part product to 10 parts water. Apply solution onto surface and let stand for 2 - 4 minutes. Rinse thoroughly with water. For medium soil loads, dilute 1 part product to 5 parts water. Apply solution onto surface and let stand for 2 - 4 minutes. Rinse thoroughly with water. When soil build-up is heavy, use product undiluted.

Personal Protective Equipment Required

- Impermeable gloves
- Chemical goggles or safety glasses

General First Aid Information

• Inhalation

Remove victim to fresh air. If breathing is difficult, oxygen may be beneficial if administered by trained personnel. Immediately transport victim to an emergency care facility.

• Ingestion

Rinse victim's mouth with water. DO NOT INDUCE VOMITING. Have victim drink 300 mL of water to dilute material in stomach. If milk is available, it may be given AFTER the water. Transport victim to an emergency facility.

• Skin Contact

In case of contact with skin, remove contaminated clothing and flush with water for at least 60 minutes. Do not interrupt flushing. Transport to an emergency facility.

• Eye Contact

In case of contact with eyes, continuously flush eyes with plenty of water or neutral saline solution for at least 60 minutes. Transport to emergency facility.
