

UNIBLAST

Product # 0316

Technical Data Sheet

Application: Carwash Detergent

Description

This alkaline powdered carwash detergent is a unique blend of water conditioning agents and biodegradable surfactants. It is extremely effective at removing dirt, oil, and road film. It works well in either hard or soft water. This product is safe on all painted surfaces and car wash equipment.

Directions

For most applications, use 2 g of product per L of water. For most effective results, use with soft, hot water. For wand wash application, prepare a stock solution by dissolving 20 kg of product in 205 L of water. Using a proportioning device, this stock solution can be metered in the detergent tank. A starting ratio for the detergent tank is 1 part stock solution to 50 parts water. This ratio may vary depending on water conditions and nature of the soil.

Personal Protective Equipment Required

- Not required for normal use

General First Aid Information

• Inhalation

Remove victim to fresh air. If breathing is difficult, oxygen may be beneficial if administered by trained personnel. Immediately transport victim to an emergency care facility.

• Ingestion

DO NOT INDUCE VOMITING. Have victim drink large amounts of water. Seek immediate medical attention.

• Skin Contact

In case of contact with skin, remove contaminated clothing and flush with plenty of running water. If irritation persists, seek medical attention.

• Eye Contact

In case of contact with eyes, check for and remove contact lenses. Immediately flush with cold running water for at least 15 minutes. Seek medical attention immediately.
