

VacClean

Technical Data Sheet

Product # 0371

Application: Vac Tank Cleaner

Description

VacClean is a concentrated degreaser that is designed for reducing VOCs and LELs on contact. It contains a blend of water soluble solvents and surfactants that encapsulate volatile hydrocarbons on contact. It is also formulated with an H₂S scavenger designed to remove trace levels of H₂S.

Directions

To reduce VOCs and LELs, use a starting dilution of 1:100. Circulate through the system ensuring the chemical contacts as much of the area as possible. Neutralize and passivate metal surfaces after use.

Personal Protective Equipment Required

If handling directly:

- Rubber gloves
- Chemical goggles or safety glasses
- NIOSH approved respirator if poorly ventilated

General First Aid Information

• Inhalation

Remove victim to fresh air. Allow rest in a well ventilated area. Seek immediate medical attention.

• Ingestion

DO NOT INDUCE VOMITING. If vomiting occurs, lean victim forward to prevent aspiration of the vomitus. Give a cup of water to dilute chemical in stomach. Seek immediate medical attention.

• Skin Contact

Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing and shoes before reuse.

• Eye Contact

In case of contact with eyes, check for and remove contact lenses. Immediately flush with cold running water for at least 15 minutes. Seek medical attention immediately.

**For further safety information
please consult the MSDS**

Packaging Options

- 20L
- 205L
- 1000L

Physical Properties

State.....Liquid
Colour.....Red
Odour.....Butyl
pH.....11-12
Density.....1.02 Kg/L
